

# ARGYRIS SERGIANNIS

## PRODUCT & SYSTEMS DESIGN ENGINEER

Product & systems design engineer focused on wearables and digital health. I take ideas from user research to working prototype, combining human-centred design, interaction design and hands-on electronics to build intuitive, meaningful products.

## SKILLS

Product Design · UI / UX Design · Wearables · Human-Centred Research · Rapid Prototyping · CAD Design · Material Selection · Embedded Programming · App Development

## TOOLS

Arduino · ESP32 · Figma · Android Studio · Creo Parametric · 3D Printing · Unity · Python · VS Code · Photoshop

## SOFT SKILLS

Creativity · Empathy · Teamwork · Curiosity · Originality · Open-mindedness · Work ethic

## LANGUAGES

**Greek**
Native

**English**
Proficient · Michigan Certificate of Proficiency (2017)

## EXPERIENCE

### APP DESIGN & DEVELOPMENT INTERN — Internship

ATRIDE · wearable health-tech, Athens

- Designed and built a companion mobile app for **ANASA™**, ATRIDE's smart breathing shirt that tracks respiration in real time.
- Turned sensor data into clear, user-friendly screens and insights for everyday users.

### ANIMATION FESTIVAL VOLUNTEER — Syros

AnimaSyros International Animation Festival

- Event equipment & venue setup; on-site support at workshops and exhibitions.

## PROJECTS

### EUFORIA · DIPLOMA THESIS — 2025 – 2026

Wearable haptic-intervention bracelet + mobile app for panic detection

- Wearable + app system that spots early signs of panic and guides self-regulation with discreet haptic feedback.
- Built a working prototype on **ESP32-S3** with heart-rate, electrodermal-activity and motion sensors, vibration feedback and **Bluetooth Low Energy**; 3D-printed enclosure.

### SHARED CAR APP — App Design

- Designed a mobile app that lets a group coordinate shared use of a car, its bookings and its services.

## STUDIO & CONTEST WORK

### STUDIO PROJECTS

**Folding Backpack** · umbrella, carry
**Salt & Pepper Shaker** · kitchenware
**Exercise-Bike Fan** · fitness, cooling
**Dyslexia Lantern** · inclusive lighting

### CONTESTS

**SHOEDES · Erasmus+** · shoe design
**3rd place in Greece** (team)
**Acropoditi Festival** · logo design
**Optika Kois** · eyewear prototypes
**Galissas Bins** · urban container

## EDUCATION

### DIPLOMA IN PRODUCT & SYSTEMS DESIGN ENGINEERING — 2020 – 2026

University of the Aegean, School of Engineering · Syros

### GAME DESIGN — 2021

Hellenic Open University · Patras
